| Lacks 1-2 sentences describing what was done and conclusions from your results Material and methods Narrative should not include results, but only methods | |
| Material and methods Narrative should not include results, but only methods | |
| Narrative should not include results, but only methods | |
| | |
| | |
| Narrative does not give enough detail to reproduce experiment | |
| Results | |
| Narrative does not adequately describe the results | |
| Narrative lacks the reasons for doing the experiments | |
| Table and or figures are not properly refered to in text, e.g. "show an effect (Fig.1 and Table 1) |)." |
| Results improperly includes interpertation of data | |
| Figure/tables | |
| Figure titles/axis labels are inadequate (must include units on axes labels) | |
| Tables and or figures are not numbered consecutively i.e. Figure 1, Figure 2, Table 1, Table 2 | |
| Graphs do not contain standard error bars | |
| Discussion | |
| Fails to adequately interpret results | |
| Fails to suggest alternate experiments or interpretations | |
| Bibliography | |
| Bibliography absent or sources improperly cited | |
