Ideas

1. Be familiar with the causes, characteristics, and consequences of the Second Great Awakening.
2. Be familiar with the growth of the anti-slavery movement, and be able to explain its impact on American society during the first half of the nineteenth century. What role did women play in the movement? (The letters to the *Liberator* in the documents at the end of the chapter will be useful here.)
3. Be able to trace the development of industry, with particular attention to the Waltham system.
4. How did the growth of urban areas affect economic and social development in the North?
5. How did immigration affect economic, social, and political history in the antebellum period?
