

Minds On Physics Instructions

If you have any questions about this site email cblehman@eiu.edu

Do **not** email any of the teachers from Glenbrook South. They are too busy to respond to student questions and requests.

Do NOT begin a module until you have read #4

1. Accessing the Site

- Point your browser to
<http://www.glenbrook.k12.il.us/gbssci/phys/mop/module.html>
- Click on the link that says "LogOn"

Minds On Physics Internet Modules

Active Mind Active Learning

Users of the Minds On Physics Internet Modules must be a student of a Registered School. Any teacher of an academic institution - a K-12 private or public school or any post-secondary school - may register the students in their classes to use the Minds On Physics Internet Modules.

Log On

2. Logging On

- You will need the following information:
 - School USERID: EIU.il
 - Student ID #: this is the concatenation of the digits in your four-digit course number 1052 plus the 2 digit number you were issued by Ms L. There is a link to the list of these MOP numbers on the FAQ page.
 - Password: this is also listed on the Mop numbers page
- Once you have entered the above information, click **Start** to continue

Students of Registered Schools:

Enter the username of your institution and your student ID# and password. Then click on the Start button.

Institution username :

(Example: glenbrooksouth.il)

Student ID# :

(Example: 3456)

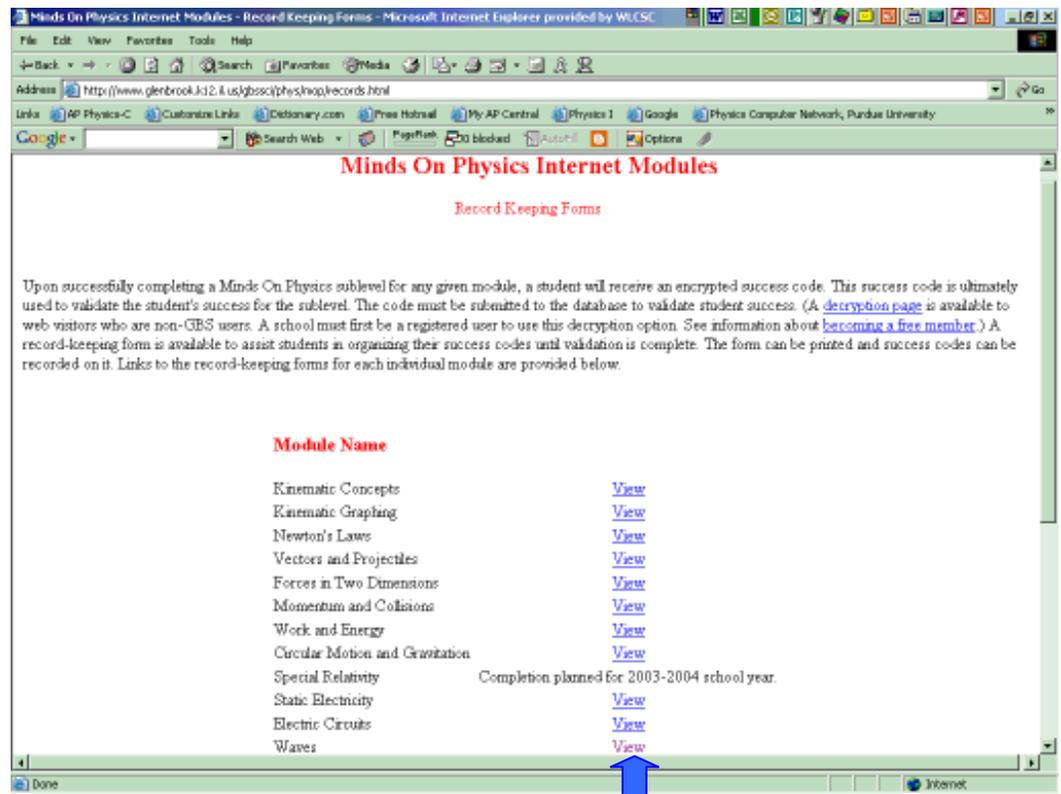

Password :

Start

- ### 3. Before beginning a module, you should click

on the **Record Keeping** link at the bottom of the page.

- The screen shown to the right below will be displayed.
- Select the desired module.
- A record keeping page will be displayed. Print the record keeping page and record the success codes for each sublevel as you work through the module.

You do not need to complete the entire module at once. You can complete one or more sublevels at a time. Any given sublevel must be completed during one session, or you will have to start the sublevel again.

- A section of the Waves Module Record Keeping Page is shown at the right. This completed page is what will be turned in to Ms L.

4. Once you have printed your Record Keeping sheet, you are ready to begin the module.
- Click on the **Start** link at the bottom of the screen. This returns you to the main screen. Logon just as you did in step 2.
 - Click on **Select Module** to drop down the list of modules. Choose **the appropriate module**.
 - Click on **Go!**.

After successful completion of each sublevel be sure to record your success code on the record keeping form. Submit this form to Ms L on the due date.
