

1. Start PhotoStory 3. Be sure the dot is in front of "Begin a new story." Click on "Next."

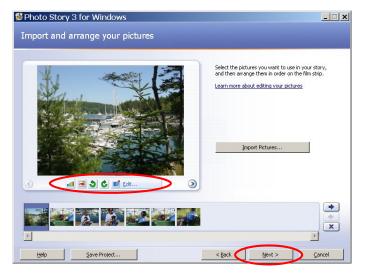

2. Click on "Import Pictures."

3. Browse to the folder containing your pictures. Hold the CTRL key down. Click on each picture you want to include in the slide show. When you're done, click on "OK."

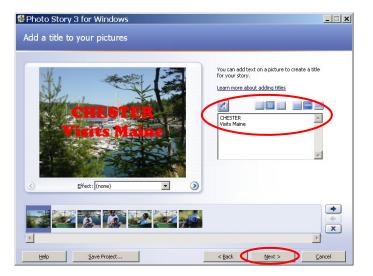

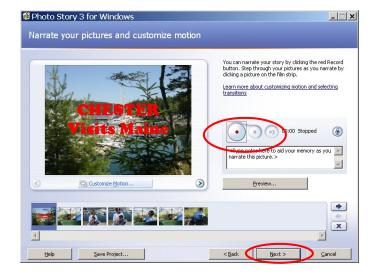

4. Rearrange the order of your pictures (if you want to). Explore the various editing options under each picture (brightness, remove red-eye, rotate, etc.). Click "Next" when you're done.

5. Optional: Add a title to the first slide. Change the font, color, etc. Click on "Next" when you're done.

6. Optional: If you have a microphone, you can add voice narration to each slide. Click on "Next" when you're done.

7. You have two choices for adding music to your slide show. If you already have your own music files, click on "Select Music."
